THE NINTENDO® 64 CONTROLLER

CONTROL STICK FUNCTION

The Nintendo®64 Control Stick uses an analog system to read the angles and directions of its movement. This gives the player a greater level of control that is not possible using the conventional + Control Pad.

When switching the Control Deck power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is switched ON, this position will be set to neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it returns to its center position (as shown in the picture on the left) then press START while holding the L and R Buttons.

The Control Stick is a precision instrument: make sure you do not spill liquids or place any foreign objects into it.

HOLDING THE NINTENDO 64 CONTROLLER

While playing Disney's Donald Duck-Goin' Quackers, we recommend you use the hand positions as shown on the left.

By holding the controller as indicated, you can operate the Control Stick freely with your left thumb. Using your right thumb, you can easily access the A,B or C Buttons. Use your left index finger to operate the Z Button on the back of the controller and your right index finger to operate the R Button on the top.

CONNECTING THE NINTENDO 64 CONTROLLER

To play Disney's Donald Duck-Goin' Quackers, you can connect a controller to any of the controller sockets located on the front panel of the Control Deck.

If you change the connection during the game, you will need to either press RESET or switch the power OFF to make the new connection active.

THE STORY

THE DUCKBURG NEWS SPECIAL EDITION

FAMOUS REPORTER DAISY DISAPPEARS!

June 5 - The famous reporter, Daisy, was reported missing yesterday, after the transmission of the most daring report of her career was inexplicably interrupted. To everyone's amazement, Daisy had succeeded in getting into the secret temple of Merlock, the terrible magician. Yesterday morning, millions of television viewers were watching her live report on the local network. Unfortunately, just as Daisy was about to show us the fearful Merlock in his temple for the first time, catastrophe struck: Merlock discovered her. The picture broke up and no one knows what has become of Daisy. The population is dismayed. Rumor has it that the illustrious Donald Duck is hot on the trail to rescue Daisy. We hope to have more details soon.

Daisy, the famous journalist
reported missing.

THE DUCKBURG NEWS SPECIAL EDITION **DONALD DUCK TO RESCUE DAISY!**

June 6 - The now illustrious and impetuous Donald Duck has undertaken a perilous journey around the world to rescue Daisy. Our newspaper learned of this while interviewing Gyro Gearloose, a personal friend of both Daisy and Donald Duck. Thanks to one of Gyro's inventions, Donald will be able to be teleported across the world, and right into Merlock's temple to save Daisy. Here's what Gyro Gearloose had to say to us: "My teleporter will be able to send Donald to Merlock's temple, no problem. But first, we have to make it more powerful. That's why Donald is going around the world. I can't tell you anything more than that..." Remember that Daisy has been missing for 2 days (see our article of June 5). Everything points to her being taken prisoner by the horrifying Merlock. The whole world has their fingers crossed in the hope that the unfailing Donald Duck can save her in time. More details in our next editions.

THE GAME

The Main Goal

Donald must complete the following three tasks to finish Disney's Donald Duck-Goin' Quackers successfully.

Gather the Pieces of the Boss Warp Pad

First, you must gather the four pieces of the boss warp pad.. The pieces were stolen and hidden in each of the worlds by the evil Merlock. Donald has to travel through all of the levels to find the pieces and put them back together. Then, Gyro can teleport Donald to the world's summit, where he must defeat the Boss, install the reflector Dish and rescue Daisy.

Find the nephews' toys

You have to help Donald's three nephews find their toys. They've been unhappy ever since Merlock took their favorite toys and cast an evil spell on them. You must break the magic spell and take back the toys. Once you've succeeded, the nephews will be so happy that they'll let you enter the Bonus Level!!! Be careful in this level - it is a Chase level.

Beat Gladstone's time

Once you've successfully completed the Bonus Level, you'll be able to go into the Beat-the-clock mode. Gladstone launches a challenge to Donald, so Donald must then replay all four worlds and beat Gladstone's record time for each one. If he can do it, and after a little fight, Gladstone will give him a reward....new threads!

Today: Like Donald, Gladstone is going on a dangerous trip around the world to save Daisy. But, he should've listened to Gyro first...
